

Annual Workshop

15-16 January 2021

FINAL AGENDA | 3pm – 7pm CET

FRIDAY JANUARY 15 th , 2021			
Introduction	15'	<i>Welcome & Opening, explanation of the platform</i>	Xenofon Baraliakos
Fellowships/Grants 2019/2020	10' + 5' each	<i>Research fellowships/grants 2019/20 presentations</i>	<p><u>From 2018/2019:</u></p> <p>Manouk de Hooge The presence of bone marrow edema and structural lesions on magnetic resonance imaging of the spine in asymptomatic subjects of the general population</p> <p>Jacqueline So The association of gut inflammation and axial inflammation in spondyloarthritis patients in Hong Kong</p> <p>Murat Torgutalp Long-term evolution of radiographic sacroiliitis progression in patients with axial spondyloarthritis: a 10-year prospective follow-up of the German spondyloarthritis inception cohort (GESPIC)</p> <p>Xabier Michelena Vegas Prevalence of extra-articular manifestations in axial spondyloarthritis (and psoriatic arthritis): Exploring its association with disease duration and gender</p> <p>Clementina Lopez Medina Development of deep learning algorithm to predict positive MRI-SIJ according to the ASAS definition in patients with recent axial spondyloarthritis</p>
Break 15'			

ASAS projects	10'	<i>Axial manifestations in PsA (AXIS project)</i>	Denis Poddubnyy
	20'	<i>ASAS-core set</i>	Victoria Navarro, Désirée van der Heijde
	20'	<i>The CLASSIC study</i>	Martin Rudwaleit Walter Maksymowych
	20'	<i>Peripheral SpA study</i>	Clementina Lopez, Anna Moltó, Maxime Dougados
	15'	<i>ASAS slide-library</i>	Denis Poddubnyy
	15'	<i>ASAS case-library</i>	Kay-Geert Hermann, Denis Poddubnyy
	15'	<i>ASAS MRI project</i>	Walter Maksymowych, Xenofon Baraliakos

SATURDAY JANUARY 16th, 2021

News from the EC	45'	<i>News from the EC: ASAS courses, New project proposals submitted to ASAS</i>	Xenofon Baraliakos, Helena Marzo-Ortega, Jochen Sieper
-------------------------	-----	--	--

Fellowships/Grants 2020/2021	4 x 10' + 5' each = 60'	<i>ASAS grant/fellowship winners 2020/21 – short presentations of projects</i>	<u>Research grants:</u> Faten Hamitouche “Determinants of clinically important worsening in early axial SpA” Stan Corné Kieskamp “Exploring the interrelationships between central sensitization disease perceptions, coping strategies and disease activity in patients with axial spondyloarthritis” Katharina Ziegeler “Anatomic variation of the sacroiliac joints – clinical significance in the context of sacroiliitis imaging” <u>Research Fellowship:</u> Paras Karmacharya “Accumulation of Comorbidities and Association with Disease Activity and Functional Impairment in Ankylosing Spondylitis: data from the PSOAS cohort”
-------------------------------------	-------------------------	--	---

Break 15'

	45'	<i>ASAS membership</i>	Victoria Navarro, Xenofon Baraliakos
--	-----	------------------------	--------------------------------------

	45'	<i>Young ASAS + Website backoffice</i>	Anna Moltó, Sofia Ramiro, Denis Poddubnyy
Closing	15'	<i>Summary + Next meeting</i>	Xenofon Baraliakos
